

**DEPARTMENT OF THE AIR FORCE
WARNER ROBINS AIR LOGISTICS COMPLEX (AFMC)
ROBINS AIR FORCE BASE GEORGIA**

MEMORANDUM FOR WR-ALC ALL PERSONNEL

FROM: WR-ALC/CV

SUBJECT: WR-ALC Energy Policy

1. The first step in making Energy Awareness, Conservation, and Resiliency a part of our daily thought process is to ensure WR-ALC has an overarching energy policy that all personnel know and understand.

2. The WR-ALC Energy Policy is as follows:

The Warner Robins Air Logistics Complex is committed to safeguarding the environment and improving energy performance while delivering cost effective readiness by managing our energy use and consumption in a disciplined and mindful manner. We are committed to:

- a. Empowering our employees to foster a culture of energy efficiency;
- b. Continuing Energy Performance Improvement and continually improving our Energy Management System (EnMS);
- c. Ensuring the availability of information and cost-justified resources to ensure that we meet or exceed our energy objectives and targets;
- d. Complying with applicable legal and other requirements related to energy use, consumption, and efficiency;
- e. Supporting and implementing AFSC and ALC efforts to improve energy security and resilience;
- f. Educating and training personnel in valuing energy as a mission essential resource;
- g. Maintaining regular top management review of our energy program and management system;
- h. Using of Energy Star[®] and other energy efficient products, facility design, and process design for energy performance improvement.

3. Our point of contact is Mr. Damon West, 402 MXSG/MXDEA, william.west.1@us.af.mil, DSN 468-8871.

CADE C. GIBSON, Colonel
Vice Commander
