

Robins AFB Environmental Commitment

Team Robins provides mission-ready airmen, aircraft, and equipment to support the warfighter while delivering world-class management, logistical and operational support to the installation. Robins AFB is committed to minimizing waste and protecting natural and cultural resources by implementing the following:

Set objectives: We will fulfill or exceed our environmental objectives to improve operational readiness.

Obey requirements: We will comply with environmental regulations and requirements while minimizing liabilities.

Achieve improvements: We will continually improve our programs, processes, and systems.

Reduce pollution: We will reduce or eliminate the use of hazardous materials and pollutants, purchase environmentally preferable products and services, while encouraging recycling.

A handwritten signature in black ink, appearing to read "J. Hemphill".

**Johari J. Hemphill, Colonel, USAF
Commander**
