

SEE SOMETHING? SAY SOMETHING!
REPORT SUSPICIOUS ACTIVITY!

What happens when I contact the Tip Line?

When you contact the Tip Line via internet, text or smartphone app you will always communicate with a live operator. Once you submit your tip you will be provided a unique tip number. Please check your tip submission within a day or two to see if further information is needed to resolve the issue. **You will never be asked for your name or personal information.** Do **NOT** share your tip number with anyone.

What do I do if I get more information?

If you have more information at a later time, re-contact the Tip Line and your unique tip number to provide an update to your original tip.

How does the online submission process work? When you submit a tip online, your form is sent using state of the art software through a Secure Socket Connection (SSL). Tips submitted through the web are encrypted, confidential, anonymous and immediately and securely transferred directly to AFOSI. After submitting your tip, you will be provided with your own unique tip number in order to check on the status of your tip or provide more information at a later time.

NOTE: Texting may not be available in some overseas locations
