

THUNDER OVER GEORGIA 2019 AIR SHOW

ATTENDANCE TIPS

Last updated: Sept. 9, 2019

DO:

Do carpool. There are very few entrances to Robins AFB. Parking will be limited to I.D. holders only. Off base parking will be free with buses providing transportation to and from the shows. Traffic flow into the base will be easier if friends and family carpool. Information on parking can be found [here](#).

Do bring sunscreen. Temperatures on the flight line are typically higher than normal. Take extra precautions with small children.

Do bring a camera and a pen. Many of the performers make themselves available for autographs during and after the show. Be sure to share your experience to social media using #ThunderOverGeorgia2019 to be included with our wonderful community during the air show.

Do bring earplugs. Loud noises on the flight line can damage your ears. Hearing protection is recommended.

Do bring folding chairs. Seating on the flight line will be limited. Visitors who want to sit to watch longer demonstrations, especially children and elderly, will want to bring lightweight, portable seating to the show.

Do bring plastic water bottles. Georgia heat can be unforgiving and the flight line is much hotter than surrounding areas. There will be free water filling stations available to those who have water bottles. Any water bottles other than plastic will not be allowed.

DON'T:

Don't smoke on the flight line. The entire ramp is designated a non-smoking area. Additional non-smoking areas will be designated by the base fire chief.

Don't plan to park on base and walk to the venue. Foot traffic north of the Aero Club is not authorized and will be turned around. All on-base parking will be bussed to the venue.

Don't bring dogs or other animals, bicycles, roller-blades, skateboards, alcohol, fireworks, food or beverages in glass containers or weapons of any kind.

Don't over indulge in alcohol. Applicable laws will be enforced. Alcohol consumption can also increase the chance of heat stroke or dehydration on a hot day.

Don't arrive too late. Limited parking and shuttle service to the flight line will require visitors to arrive early to see all the action.

Don't bring wagons or other child carrying items that are not collapsible.

Don't politically campaign while on base.

Don't leave bags/packages unattended.

PROHIBITED ITEMS:

To keep a safe environment for all attending the air show, the following list of items will not be allowed to enter Robins Air Force Base:

- Knives, box cutters, razors or any other sharp items
- Firearms, blunt objects or any other object that can be considered a weapon
- Coolers, backpacks, briefcases, large bags or packages
