

Robins AFB Environmental Commitment

All Robins AFB employees are committed to environmental excellence, the stewardship of community resources, and sustainability of base-wide operations by implementing the following:

Set objectives: We will fulfill or exceed our environmental objectives to improve operational readiness.

Obey requirements: We will comply with environmental regulations and requirements while minimizing liabilities.

Achieve improvements: We will continually improve our programs, processes, and systems.

Reduce pollution: We will reduce or eliminate the use of hazardous materials and pollutants, purchase environmentally preferable products and services, while encouraging recycling.
