

The following is a courtesy notice for project UHHZ200006 / RPR/RPL WALL, COMM FACILITY, B214. The project will require scaffolding to be installed around the perimeter of the building. To safeguard the building occupants, the exterior doors will be periodically closed. The closure will be limited to one door at a time while demo and installation of the Stucco is installed on the building. The facility manager will be briefed in advance, on when each door will be closed. In case of an emergency, construction will halt, and doors will open to allow egress. Construction contractor is scheduled to begin mobilization on 9 January 2023 the ECD is 13 April 2023. Entry and egress are not expected to be impacted until late January. In case of inclement weather or unforeseen conditions, work could be delayed. Your cooperation will be appreciated. Please notify this office immediately if you are aware of potential problems with this closure. If you have any questions, the point of contact is Dustin Yearty, 478-926-8837. You may also contact Lou Bouffard, DSN 497-3977 or Labor Specialist, Joyce Whitney, DSN 497-4250 (WHITNEY JOYCE M NH-03 USAF AFMC 78FSS/FSCAL joyce.whitney.1@us.af.mil).

This is a notification to the union that the dates for the work phases for Project No. UHHZ210442, RPR/RPL MASONRY/CONCRETE WALLS, INEGR SPT FACILITY, B229E have been set for 24 October 2022 through 31 October 2023. The contractors will be repairing and replacing masonry wall at B229 (shown in red on map). The West side of the B213 (shown in black on map) will be closed for the duration of the project. Closure is needed to allow the contractor room to store materials. Currently this area is not utilized for parking and there are no impacts to handicap parking spots. Construction impacts have been coordinated with facility managers in B229 and B213 for this change. These dates are subject to change due to inclement weather and possible project delays. Your cooperation will be appreciated. Please notify this office immediately if you are aware of potential problems with this closure. If you have any questions, the point of contact is Sudeep Jacob, DSN 497-2938. You may also contact Lou Bouffard, DSN 497-3977 or Labor Specialist, Joyce Whitney, DSN 497-4250 (WHITNEY JOYCE M NH-03 USAF AFMC 78 FSS/FSCAL joyce.whitney.1@us.af.mil).

B269 and UHHZ20074 INSTALL SPRINKLER SYSTEM, LOG FCLTY DEP OPS, B269, 6 June 2022 until 27 February 2023

This is a notification to the union that the dates for the work phases for Project No. UHHZ200035, EXPAND B269, LOG FCLTY DEP OPS, B269 and UHHZ20074 INSTALL SPRINKLER SYSTEM, LOG FCLTY DEP OPS, B269, have been set for 6 June 2022 until 27 February 2023. The contractor will be constructing an addition to the existing facility and installing a sprinkler system. During construction 10 parking spots will be blocked off in order to relocate and tie in utility lines. No handicap spaces will be affected. Construction impacts for both projects have been coordinated with facility manager in B269. The attached drawing shows overall construction site. These dates are subject to change due to inclement weather and possible project delays. All efforts are being planned out to keep mission impacts to a minimum during sprinkler system installation. Your cooperation will be appreciated. Please notify this office immediately if you are aware of potential problems with this closure. If you have any questions, the point of contact is Walter Carter, DSN 497-2994. You may also contact Lou Bouffard, DSN 497-3977 or Labor Specialist, Michelle Averyheart, DSN 497-8486 (AVERYHEART, MICHELLE D NH-03 USAF AFMC 78 FSS/FSMP michelle.averyheart@us.af.mil).

B150 31 January 2022 through 17 April 2023

UHHZ1081561 RPR/RENOV BUILDING 150, SHP ACFT GEN PURP, B150 have been set for 31 January 2022 through 17 April 2023. This project will replace the existing roof structure and covering, exterior windows and doors, as well as, the fire protection, mechanical, plumbing, and electrical systems. In addition, the restroom/locker room areas and damaged wall and floor surfaces will be repaired. Contractors will be conducting all work necessary to remediate lead based paint and heavy metals. Construction impacts have been coordinated with facility managers in B150. The high bay area of the facility has been completely evacuated. Workers still occupying the annex buildings of B150 will switch to night shift during critical construction phases. Due to impacts of this construction project, all fire extinguishers due for inspection and/or repair shall now be taken to B189 for the duration of this construction project. Contact Kyle Glidewell at james.glidewell.1@us.af.mil for assistance. This function will remain at B189 until completion and release of the new facility to the Requestor by 78th CEG.
